2014-2015 AF: IDA AWARDS

Peter Bannerman, Associate Project Scientist
Cell Biology and Human Anatomy
Proposal Title: Development of a novel model of pediatric myelitic disease
$10,000.00

Michael George, Assistant Research Microbiologist
Medical Microbiology and Immunology
Proposal Title: Impact of aging on the oral microbiome and pathogenesis in HIV infected women
$4,473.00

Kristine Godfrey, Associate Project Scientist
Contained Research Facility, CAES
Proposal Title: Entomopathogenic Fungi Attacking Psyllids and Whiteflies in California
$4,906.00

Michael Gregg, Research Physicist
Physics
Proposal Title: Primordial Jeans Mass Dark Matter Halo Objects
$6,400.00

Christoph Lossin, Professional Researcher
Neurology
Proposal Title: Cardiac Toxicity of sodium channel slow inactivation enhancers
$9,882.13

Karen Shapiro, Assistant Researcher
VM: Pathology, Microbiology and Immunology
Proposal Title: Association of noroviruses with aquatic aggregates: Implications for seafood safety
$9,589.60
